# REFINERY SHUTDOWN EMERGENCY SERVICES

[www.salemtube.net](http://www.salemtube.net)

**Salem Tube**  
INTERNATIONAL LTD

*Your Global Partner for Heat Exchanger and Boiler Tubes*

Salem Tube International has increased capacity for Refinery Shutdown and Emergency Services. This department is specialized in the supply of Heat Exchanger and Condenser Tubes either straight or 'u' bent.

**MATERIALS AVAILABLE FROM STOCK:**

- Carbon Steel
- Alloy Steel
- Non Ferrous Metals
- Stainless Steel
- Nickel Alloys
- Titanium

**FOR URGENT REQUIREMENTS AND EMERGENCY PURPOSES.**

The material can be supplied ex stock for delivery within hours or from special new production within a very short lead time.

Salem Tube International has gained an enviable reputation supplying refineries with quick and on time deliveries.

The result is a tremendous saving in costs and time for the end users.

This means that the refinery or the petrochemical plant does not have to keep its own stock for shutdowns and maintenance periods.

Deliveries can be made to suit your requirements no matter how demanding. We can offer a 24 hour contact number which means you can get the service that your business needs.

**We offer a worldwide 'Shutdown Service'.**

Furthermore we offer a complete service with yearly contracts and estimated quantities for all kinds of Heat Exchanger tubes used in your plant.
